

Hallo zusammen,

Boris und ich haben überlegt, dass die Vorabverteilung von Spielen vielleicht eine gute Sache ist. Dazu bieten wir diesmal privates P2P-Filesharing an. Das ganze läuft über Syncthing [1]. Gibt es für alle gängigen Betriebssysteme und unter anderem auch für Synology-NAS.

Wer es probieren möchte kann den Bildern im Anhang folgen. Einfach den Clienten der Wahl herunterladen. Einen Order mit der ID SiBo-Lan anlegen. Die ID YI2BLE5-HTKBO64-AAVZ5DI-3PLQDXE-C2ODIRS-ELYI6O-LHHJBKN-LIFS7QD als Remote Device hinzufügen, als Introducer einstellen und den Share SiBo-Lan mit ihm teilen. Wenn ihr das getan habt, dann gebt kurz Bescheid, weil jedes Device muss per Hand akzeptiert werden und ich werde nicht rund um die Uhr davor sitzen.

Wer nur ein paar Spiele will, der sollte bei dem Share noch den

Datei-Filter:

!Spiele/\*\*/\*  
\*\*/\*

einstellen, sonst darf er sich über mehr als 100 GB Download freuen. Mit dem Filter sind es im Moment nur ~23 GB.

Liebe Grüße,  
Simon.

### Edit Folder

Folder Label: SiBo-Lan  
 Optional descriptive label for the folder. Can be different on each device.

Folder ID: SiBo-Lan  
 Required identifier for the folder. Must be the same on all cluster devices.

Folder Path: E:\SiBo-Lan Browse  
 Path to the folder on the local computer. Will be created if it does not exist. The tilde character (~) can be used as a shortcut for C:\Users\simon.

Share With Devices  
 Select the devices to share this folder with.

Boris-Ivanhoe  comwo.ddns.net  speicherinsel
